UNIT 5 REVIEW #2

Is it a function?

Marcel claims that the graph below represents a function.

State whether Marcel is correct. Justify your answer.

1) Yes, Marcel is correct. The graph passes the vertical line test.

2) Yes, Marcel is correct. Every x-value on the graph has a y-value.

3) No, Marcel is not correct. $x = 2$ is paired with two y-values, 3 and −1, so the graph fails the vertical line test.

4) No, Marcel is not correct. The graph has a V shape, so it cannot be a function.
